Having worked for over a decade in the Film and Television industries, building up a large network of sound professionals and working on a wide variety of productions, I have gained a broad skillset to provide high quality results. I take pride in having great working relationships with cast and crew, approaching every job with a non-intrusive, friendly and professional attitude, whilst recognising the importance of seeing the bigger picture and respecting other departments needs and challenges. I am always willing to learn new skills, ideas and techniques using a mixture of traditional and innovative technologies and equipment.
